

2008 BAPS meeting Program in Leuven

8:00 Registration – posters to be attached

8:50 Welcome

9:00 **Keynote 1** – Julian Thayer

Psychopathology and psychosomatic medicine: The neurovisceral integration perspective

9:50 Best Thesis Award

10:15 Coffee Break

10:45 **Symposia**

- S1. Language, numbers and space
- S2. Panic disorder: Experimental investigations on mechanisms
- S3. The basis of justice: Multidisciplinary explorations
- S4. A slim “perfect” body and eating behaviour
- S5. Brain dynamics and localisation of control, attention, social inference and planning

12:15 Poster Session and Lunch

13:30 General Assembly of the BAPS

14:00 **Symposia**

- S6. Face perception: Multiple approaches
- S7. Symptom perception in aversive somatic states: Body-and-brain interactions
- S8. Understanding acculturation
- S9. Hot attention

15:00 **Keynote 2** – Michelle Craske

Translation from science of fear extinction and memory to exposure therapy for phobias and anxiety disorders

15:50 Coffee Break

16:20 **Symposia**

- S10. Conflict and inhibition -Methods
- S11. Reducing cognitive vulnerability for emotional disorders
- S12. Work, organizational and personnel psychology
- S13. Executive and biophysiological markers for developmental impairments
- S14. Consciousness and implicit learning

17:50 Reception in honour of the 60th anniversary of BAPS with at 18:00 the announcement of the Best Poster Award

Symposia

S1. (S8) Language, numbers and space

(Chair: Steve Majerus)

Arnaud Szmalec (PhD, UGent)

The Hebb repetition effect as a laboratory analogue of novel word learning

Gregory Collet (PhD-student, Service d'Analyse de Données)

Behavioural and electrophysiological effects of identification training: A pilot study on categorical perception of voicing

Steve Majerus (PhD, Ulg)

The importance of serial order short-term memory for lexical bilingual proficiency:

Evidence from functional neuroimaging

Jean-Philippe van Dijck (PhD-student, UGent)

Reversed neglect for number space: A single case study

Tom Putzeys (MA-student, KUL)

A common mGluR7-dependent mechanism underlies working memory and extinction

S2. (I3) Panic disorder: Experimental investigations on mechanisms

(Chair: Koen Schreurs)

Koen Schreurs (PhD, UMaastrecht)

Anxiety, fear and panic: A conceptual approach

Dirk Hermans (PhD, KUL)

Semantic priming of panic related and unrelated word pairs in panic patients and anxious controls

Ilse Van Diest (PhD, KUL)

Threats from within the body: Interoceptive conditioning to respiratory cues

Deb Vansteenwegen (PhD, KUL)

Anxiety induced by unpredictability might complicate the "panic" picture

S3. (S5) The basis of justice: Multidisciplinary explorations

(Chairs: Alain Van Hiel & Jeroen Stouten)

Alain Van Hiel (PhD, UGent)

The personality basis of justice: The Five-Factor Model as an integrative model of personality and procedural fairness effects on cooperation

Ilse Cornelis (PhD-student, UGent)

Birds of a feather: Leader-follower similarity effects of procedural fairness

Lieven Brebels (PhD-student, UTilburg)

Levels of self-definition in the relation between procedural fairness and OCB

Gert Theunissen (PhD-student, KUL)

Idiosyncratic deals and the triangle of justice: How do coworkers react to nonstandard work arrangements?

Jeroen Stouten (PhD, KUL)

Who is fair? Person and nation-level determinants

S4. (I5) A slim “perfect” body and eating behaviour

(Chair: Anne Roefs)

David Marchiori (PhD-student, ULB)

Small or large candies? How portion influences our food intake volume

Dinska Van Gucht (PhD, KUL)

How can learning models improve interventions in eating disorders?

Maarten Vansteenkiste (PhD, UGent)

The significance of perfectionism in eating disorders: A comparative study

Laurence Claes (PhD, KUL)

Self-care versus self-harm: Piercing, tattooing, and self-injuring in eating disorders

Anne Roefs (PhD, UMaastricht)

Looking good: BMI, attractiveness bias and visual attention

S5. (S7) Brain dynamics and localisation of control, attention, social inference and planning

(Chair: Frank Van Overwalle)

Marie-Anne Vanderhasselt (PhD-student, UGent)

ERP correlates of cognitive control: Evaluative and regulative control processes

Kimberley Vandamme (PhD-student, UGent)

Attentional resource sharing between storage and processing: An ERP study

Frank Van Overwalle (PhD, VUB)

ERP time course and brain areas of spontaneous and intentional goal inferences

Arnaud D'Argembau (PhD, Ulg)

Neural correlates of envisioning emotional events in the near and far future

S6. (S4) Face perception: Multiple approaches

(Chair: Valerie Goffaux)

Bruno Rossion (PhD, UCL)

Behavioral and neural evidence for preserved holistic face detection in acquired prosopagnosia

Petra Vlamings (PhD-student, UMaastricht)

The role of spatial frequency information in the early processing of fearful facial expressions:

An ERP study across childhood

Valerie Goffaux (PhD, UMaastricht)

Face perception at various phase orientations

Goedele Van Belle (PhD-student, KUL)

Transsaccadic integration of configural information in face perception

S7. (I2) Symptom perception in aversive somatic states: Body-and-brain interactions

(Chair: Andreas Von Leupoldt)

Andreas Von Leupoldt (PhD, UHamburg)

The unpleasantness of breathlessness is processed in the anterior insula and amygdala

Steven De Peuter (PhD, KUL)

“Overperception” of asthma symptoms is related to illness-specific catastrophizing

Omer Van den Bergh (PhD, KUL)

Interoceptive accuracy in persons with Medically Unexplained Symptoms (MUS)

Marjolein Hanssen (PhD-student, UMaastricht)

Social context influences the effects of the threat value of pain

S8. (S6) Understanding acculturation

(Chair: Batja Mesquita)

Joke Meeus (PhD-student, KUL)

How Belgian should a Turkish immigrant be?

Norbert Vanbeselaere (PhD, KUL)

Acculturation: Different things to different people

Karen Phalet (PhD, KUL)

Immigrant and host acculturation orientations: The role of situational and motivational factors

Batja Mesquita (PhD, KUL)

Emotional acculturation

S9. (S2) Hot attention

(Chairs: Helen Tibboel & Julia Vogt)

Julie Bertels (PhD-student, ULB)

Attentional biases to auditorily presented emotional stimuli

Lies Notebaert (PhD-student, UGent)

Is threat sufficient to bias attention? An experimental investigation

Helen Tibboel (PhD-student, UGent)

The emotional modulation of the attentional blink: Effects of taboo stimuli, expectancy, and coherence

Julia Vogt (PhD-student, UGent)

Do goals evoke attentional bias? Goal relevance as determinant of automatic attentional allocation

S10. (S8) Conflict and inhibition -Methods

(Chair: Eric Soetens)

Baptist Liefoghe (PhD, UGent)

Selecting tasks of unequal strength

Samuel Franssens (MA-student, KUL)

The effortless nature of conflict detection during thinking

Eric Soetens (PhD, VUB)

Inhibiting irrelevant attentional capture in an accessory signal Simon task

Joachim Vandekerckhove (PhD-student, KUL)

Fitting the diffusion model to experimental data: Methods and tools

Dieter Vanderelst (PhD-student, UA)

The e-detection task to measure the visibility of primes in masked-priming experiments

S11. (I4) Reducing cognitive vulnerability for emotional disorders

(Chair: Ernst Koster)

Ernst Koster (PhD, UGent)

Title to be announced

Gero Lange (PhD-student, Radboud Universiteit Nijmegen)

Title to be announced

Saskia Baert (PhD-student, UGent)

Title to be announced

Nathalie Vrielynck (PhD-student, UCL)

Impact of the specificity of information processing during imaginal exposure in PTSD
Pierre Philippot (PhD, UCL)
Emotional and behavioural consequences of the specification versus overgeneralization of anxious apprehension

S12. (S1) Work, organizational and personnel psychology

(Chair: Hans De Witte)
Tim Vantilborgh (PhD-student, VUB)
Predicting multidimensional entrepreneurial success from personality
Nicky Dries (PhD-student, VUB)
Career success revised: Discerning idiosyncratic definitions using qualitative methods
Tine Buyse (PhD-student, UGent)
Response instructions in situational judgment tests and their effects on performance and validity
Marjolein Feys (PhD-student, UGent)
The interactive effects of leader-member exchange and justice perceptions on feedback reactions in performance appraisal
Jeroen Stouten (PhD, KUL)
Toxic leadership and followership
Katalien Bollen (PhD-student, KUL)
Mediation in hierarchical conflicts: The role of gender and anger

S13. (I1) Executive and biophysiological markers for developmental impairments

(Chair: Bea Van den Bergh)
Maurits van der Molen (PhD, UvA)
Developmental changes in error - and conflict adjustments
Isabelle Roskam (PhD, UCL)
Linking children's personal characteristics, externalizing behavior and relationships in family environment: Some developmental cascades
Maarten Mennes (PhD-student, KUL)
Neurophysiological correlates of endogenous cognitive control in adolescence are influenced by antenatal maternal anxiety
Bea Van den Bergh (PhD, U Tilburg)
Anxiety symptoms in childhood and hpa function and depressive symptoms in adolescence: Are they related to exposure to prenatal maternal anxiety?

S14. (S3) Consciousness and implicit learning

(Chairs: Natacha Deroost & Bert Timmermans)
Bruno Berberian (PhD, ULB)
Gradual change and implicit detection: A new methodological approach
Axel Cleeremans (PhD, ULB)
Consciousness and metarepresentations: A computational sketch
Daphné Coomans (PhD-student, VUB)
The role of perceptual load in implicit learning of irrelevant sequence information
Bert Timmermans (PhD, ULB)
Influence of subliminal stimuli on implicit learning of a supraliminal sequence
Jochen Vandebossche (PhD-student, VUB)
Does implicit learning in non-demented Parkinson's disease depend on the level of cognitive functioning?

Posters

1. **Elke Veirman** (PhD-stud, UGent)

The relation between emotional competence and classical intelligence: An investigation in a primary school population

2. **Bart Van de Ven** (PhD-stud, UGent)

Job demands, job resources and employee creativity

3. **Marie Barbier** (PhD-stud, Ulg)

Statistical validation of the Positive and Negative Occupational Stress Inventory

4. **Wendy Broesder** (PhD-stud, MoD, Nederlandse Defensie Academie)

The struggle of the peace-keeping warrior: Role conflicts among military peacekeepers

5. **Nicolas Van der Linden** (PhD-stud, ULB)

Belligerent peaceniks and hippie warmongers: The dimensionality of attitudes towards, and social representations of, war and peace

6. **Laurent Licata** (PhD, ULB)

Brussels residents hanging out the Belgian flag: Investigating the roles of identity threat perception, ingroup identification, intergroup attributions and collective emotions in political protest

7. **Audrey Heine** (PhD-stud, ULB)

The influence of the origins' country on identity processes of immigrants' children: A study of stereotypic representations

8. **Cynthia Marchal** (PhD-stud, ULB)

Did the employee seek it? Stereotype and retrospective memory about sexual harassment

9. **Toon Kuppens** (PhD-stud, UCL)

Social identity, threats, and group-based emotions

10. **Hélène Jacques** (PhD-stud, UCL)

Emotions in intergroup negotiation

11. **Stéphane Doyen** (PhD-stud, ULB)

Can expertise in playing computer games help you do more than play a game better?

12. Jonathan Dedonder (PhD-stud, UCL)

The mere exposure effect depends on the way you look!

13. **Vincent Coppola** (PhD-stud, University of Rouen)

The role of the marking of the argumentativity in the processing of a persuasive message: an illustration in the public health communication field

14. **Nicolas Kervyn** (PhD-stud, UCL)

The compensation effect: Indirect measures and consequences

15. **Julie Lecoq** (PhD-stud, UCL)

Alleged motives for socially sharing a passion

16. **Catia Teixeira** (PhD-stud, UCL)

The influence of negotiation motives on representative selection

17. **Laurent Waroquier** (PhD-stud, ULB)

To think or not to think that's the question. Is unconscious thought more efficient than conscious thought when choosing among complex alternatives?

18. **Anne-Lise Leclercq** (PhD-stud, Ulg)

Serial order short-term memory predicts later vocabulary development: evidence from a longitudinal study

19. **Steve Majerus** (PhD, Ulg)

The impact of auditory selective attention on verbal short-term memory and vocabulary development

20. **Anne-Catherine Nicolay** (PhD-stud, Ulg)

Early English language immersion in French-speaking children: Evaluation of the role of verbal STM in the acquisition of English vocabulary

21. **Nele Verreyt** (MA-stud, UGent)

The influence of learning-modality on vocabulary learning

22. **Lise Van der Haegen** (MA-stud, UGent)

How does interhemispheric communication work in visual word recognition?

23. **Baptist Liefoghe** (PhD, UGent)

Hunting down the asymmetric switch cost: The case of the saccades

24. **Jelle Demanet** (PhD-stud, UGent)

Response-sequence effects in voluntary task selection

25. **Björn Van Loy** (PhD-stud, UGent)

In search of differences in cued task switching with transition and explicit cues: Cue interpretation versus task reconfiguration

26. **Aurélie Huyse** (PhD-stud, ULB)

Multimodal speech integration: Role of balance between auditory and visual cues

27. **Meike Ramon** (PhD-stud, UCL)

Personally familiar faces and holistic processing

28. **Fang Jiang** (PhD, UCL)

Representation of 3D face shape and 2D surface reflectance in the Ventral Temporal Cortex

29. **Thomas Busigny** (PhD-stud, UCL)

Processing upright and inverted faces in acquired prosopagnosic patients with no object recognition deficits

31. **Stéphanie Caharel** (PhD, UCL)

The time course of the familiarity effect during individual face matching

32. **Marre Frickel** (PhD-stud, KUL)

Numerosity estimation strategies in a structured task

33. **Viki Schillemans** (PhD-stud, KUL)

The influence of previous strategy use on participants' subsequent strategy selection: Findings from a numerosity judgement task

34. **Sylvie Willems** (PhD, Ulg)

False memory and feeling of surprise: Round #3

35. **Sarah Merbah** (PhD-stud, Ulg)

Impact of practice conditions on the acquisition of motor skills

36. **Jonathan Dedonder** (PhD-stud, UCL)

What's your name? Comparison of two strategy increasing name-learning

37. **Peter Zeischka** (PhD-stud, VUB)

Reduced flanker repetitions are independent of the response-stimulus interval

38. **David Henderickx** (PhD-stud, VUB)

Inhibition of return: A bottom-up routed attentional process

39. **Stéphanie Chambaron** (PhD, ULB)

Learning discrete and continuous regularities in two-dimensional settings

40. **Stéphanie Chambaron** (PhD, ULB)

Influence of the response-stimulus interval on implicit sequence learning: Constant vs. variable RSIs

41. **Elena Nunez Castellar** (PhD-stud, UGent)

Error adaptation in a social context

42. **Elisah D'Hooge** (MA-stud, UGent)

The role of active inhibition in processing implicit spatial information

43. **Florence Gabriel** (PhD-stud, ULB)

A componential view of fraction knowledge: Exploratory data

44. **Evelyne Lagrou** (PhD-stud, UGent)

Task interruption by emotional stimuli: Evidence from the task switching paradigm

45. **Hedwige Dehon** (PhD, Ulg)

The influence of affective valence on false recognition in the Deese/Roediger & McDermott Procedure

46. **Hedwige Dehon** (PhD, Ulg)

The influence of affective valence on false recall in the Deese/Roediger & McDermott Procedure

47. **Dennis Cuyle** (MA-stud, KUL)

False memory in the DRM paradigm: Does the use of personally relevant word lists influence the level of true and false recognition?

48. **IlseVan Damme** (PhD-stud, KUL)

The effect of encoding/retrieval conditions on Korsakoff patients' false memories

49. **Wim Spittaels** (MA-stud, KUL)

The effects of camera angle versus status on a person's perception

50. **Isabel Depestel** (PhD-stud, KUL)

Development of number representations in preschool children

51. **EvaVan den Bussche** (PhD-stud, KUL)

Masked semantic priming: A picture prime study

52. **Karolien Notebaert** (PhD-stud, KUL)

The task-dependency of the neural mechanism behind the quantity priming effect

53. **Aline Sevenants** (PhD-stud, KUL)

The possibilities task and the truth task: Individual differences and task characteristics

54. **Thierry Chevalley** (PhD-stud, KUL)

Get the combinations right and exploit uncertain outcomes

55. **Zita Oravec** (PhD-stud, KUL)

Exploring new aspects of changes in the core affect space with stochastic approach

56. **Philippe Verduyn** (PhD-stud, KUL)

Predicting the duration of emotions

57. **Wouter Voorspoels** (PhD-stud, KUL)

Extending the prototype view of concept representation

58. **Wolf Vanpaemel** (PhD, KUL)

Is prototypical typical?

59. **Eef Ameel** (PhD, KUL)

Semantic convergence in the bilingual lexicon

60. **Ann Van der Jeugd** (PhD-stud, KUL)

Memory defects in transgenic tau mice

61. **Arne Naert** (PhD-stud, KUL)

Alterations in prepulse inhibition in VGLUT heterozygous mice

62. **Hannelore Goddyn** (PhD-stud, KUL)

Chronic infusion of D,L-AP5 in a conditioned emotional response task

63. **Els Joos** (PhD-stud, KUL)

Consolidation of the CS-US association through mental rehearsal

64. **Evelien Coppens** (PhD-stud, KUL)

The role of the human amygdala in fear conditioning: A lesion study

65. **Evelien Coppens** (PhD-stud, KUL)

The role of the human amygdala in EXPLICIT fear conditioning: A lesion study

66. **Ann Meulders** (PhD-stud, KUL)

Retardation of cue-conditioning and chronic enhancement of online US-expectancy due to context conditioning induced by unpredictability in a human fear conditioning preparation

67. **Riet Fonteyne** (PhD-stud, KUL)

Reduction of contextual fear

68. **Valerie Marescau** (PhD, KUL)

Direct contextual effect of multiple context extinction on renewal in human predictive learning

69. **Yannick Boddez** (PhD-stud, KUL)

Cue competition and extinction

70. **Priya van Vooren** (PhD-stud, KUL)

The transfer potential of extinguished modulators

71. **Mathijs Franssens** (PhD-stud, KUL)

The effect of feature salience on the resolution of simultaneous feature positive discriminations:

Further evidence for configural learning in human Pavlovian conditioning

72. **Mathijs Franssens** (PhD-stud, KUL)

Occasion setting and reinstatement in Pavlovian human conditioning

73. **Tom Beckers** (PhD, KUL)

Evaluative conditioning is insensitive to blocking

74. **Mieke Declercq** (PhD-stud, UGent)

Evidence for a hierarchical structure underlying avoidance

75. **An Raes** (PhD-stud, UGent)

Aversive conditioning under conditions of restricted awareness: Effects on spatial cueing

76. **Elise Debeer** (PhD-stud, KUL)

Operant conditioning of autobiographical memory specificity: An experimental investigation of the affect-regulation hypothesis

77. **Valentina Prati** (MA-stud, Padua University)

Faking the Autobiographical Implicit Association test

78. **Jorien Smets** (MA-stud, KUL)

The effects of induced abstract (ruminative) vs. concrete (non-ruminative) thinking on OGM in students: A study design

79. **Sophie Huybrechts** (MA-stud, KUL)

The effects of induced abstract (ruminative) vs. concrete (non-ruminative) thinking on executive capacities in dysphoric students: A study design

80. **Marie de Romrée** (PhD-stud, UCL)

Exploration of attachment styles differences in the way people share their emotions

81. **Dimitri Van Ryckeghem** (PhD-stud, UGent)

Do adults have an attentional bias towards pain-related information: A meta-analysis

82. **Thijs Maes** (MA-stud, KUL)

ADHD and reasoning bias: A common role for inhibition?

83. **Heleen Vandromme** (PhD-stud, KUL)

Implicit self-esteem in a picture-picture naming task: Personally perceived physical attractiveness rather than global self-esteem

84. **Daniela Schön** (PhD, UHamburg)

The influence of right insular cortex lesions on the perception of dyspnea and pain

85. **Marie Géonet** (PhD-stud, UCL)

How do women with a low level of sexual desire rate sexual stimuli?

86. **Katarzyna Uzieblo** (PhD-stud, UGent)

The startle modulation by affective film clips in non-institutionalized psychopathy

87. **Nathalie Vrielynck** (PhD-stud, UCL)

The writing paradigm: Effect of the level of specificity of writing on psychological outcome in traumatized individuals

88. **Liesbet Goubert** (PhD, UGent)

Catastrophizing about their children's pain is related to less underestimation of pain in their child: An experimental investigation

89. **Katrien Vandenbosch** (PhD-stud, UGent)

- The validity of finger pulse line length for the detection of concealed information
90. **Bruno Verschuere** (PhD, UGent)
- The role of deception in the P300-based concealed information test
91. **Marie Boulanger** (PhD-stud, Ulg)
- The effects of cognitive remediation therapy on AM deficits in schizophrenia patients
92. **Alexandre Heeren** (PhD-stud, UCL)
- Effects of mindfulness training on executive processes and autobiographical memory specificity
93. **Hannes Verdu** (PhD-stud, KUL)
- Bridging the gap between research and practice: The Leuven systematic case-study protocol
94. **Stefaan Baert** (PhD-stud, VUB)
- The introduction of outcome management in Flanders
95. **Filip Raes** (PhD, KUL)
- Instability of self-esteem and paranoia in adolescents
96. **Filip Raes** (PhD, KUL)
- The relationship between mindfulness, cognitive reactivity, and rumination
97. **Dinska Van Gucht** (PhD, KUL)
- Smoking behavior in context: Where and when do people smoke?
98. **Sandra Aubry** (PhD-stud, ULB)
- Mourning and renouncement in the obese patient: A clinical approach
99. **Alexia Jacques** (PhD-stud, ULB)
- Trauma and psychic envelopes
100. **Sarah Dero** (PhD-stud, KUL)
- Measuring subjective well-being of persons with profound intellectual and multiple disabilities
101. **Sara Casalin** (PhD-stud, KUL)
- The role of infant temperament, maternal personality and metallization in (dis)continuity of socio-emotional development of children: Theoretical background and design
102. **Stefan Kempke** (PhD-stud, KUL)
- Early adversity, perfectionism and affect regulation in patients with chronic fatigue syndrome/fibromyalgia
103. **Peter Kuppens** (PhD, KUL)
- Sources of individual differences in emotional experience: The case of anger
104. **Ilse Beck** (PhD-stud, KUL)
- Temperamental reactivity and self-regulation in eating disorders
105. **Meike Pappens** (PhD-stud, KUL)
- Disentangling self-reported anxiety from panic through situational scripts
106. **Li Wan** (PhD, KUL)
- Repeated breathlessness experiences: Differential effects on intensity and unpleasantness
107. **Johan Bresseleers** (PhD-stud, KUL)
- Anxiety and cerebral blood flow in normo-, hyper- and hypocapnia
108. **Elke Vlemincx** (PhD-stud, KUL)
- Sighing during and after mental arithmetics
109. **Stien Fannes** (PhD-stud, KUL)
- Conditioning of breathing behavior: Conditioning of the central respiratory drive as measured by inspiratory occlusion pressure
110. **Anne-Sophie Ryckebosch** (PhD-stud, UCL)
- Pet loss and grief: A meditational model
111. **Mercedes De Weerd** (PhD-stud, VUB)
- The on MMPI-2 based Megargee Classification System: Comparison of background characteristics of types Delta and Item
112. **Ibrahim Abu Nada** (PhD-stud, VUB)

- Post traumatic stress and demographic factors among Palestinian adolescents living in the Gaza strip
113. **Leen Bastiaansen** (PhD-stud, VUB)
Are personality disorders well classified in DSM-IV-TR? An assessment of the construct validity of the three Axis-II-clusters using confirmatory factor analysis
114. **Joke Meirens** (PhD-stud, VUB)
The relationship between attention-deficit hyperactivity disorder and subsyndromal mood disorders in adults
115. **Laurent Lefebvre** (PhD, UMH)
Language impairments in Alzheimer Disease
116. **Koen Beirens** (PhD-stud, UGent)
Development of the Ghent Multidimensional Somatic Complaints Scale
117. **Inge Devoldre** (PhD-stud, UGent)
Empathy as a determinant of social support provision in couples
118. **Karin Proost** (PhD, Open Universiteit Nederland)
The relationship between cognitive test anxiety, self-consciousness, perfectionism and achievement goals
119. **Karine Verschueren** (PhD, KUL)
Additive and interactive effects of relationships with parents, peers and teachers on young children's self-esteem
120. **Patricia Bijttebier** (PhD, KUL)
Assessment of effortful control in childhood: Questionnaires versus performance-based measures
121. **Katrien Verstraeten** (PhD-stud, KUL)
Reactive and self-regulative aspects of temperament as vulnerability factors for the development of depressive symptomatology in children
122. **Annelore Roose** (PhD-stud, KUL)
Trait reactivity and effortful control as predictors of antisocial behavior and substance abuse in adolescence
123. **Eileen Tang** (PhD-stud, KUL)
The role of paternal personality in the developmental trajectories of children: A prospective study
124. **Sarah Doumen** (PhD-stud, KUL)
Children's aggressive behavior and teacher-child conflict in kindergarten: Is teacher perceived control of child behavior an intervening variable ?
125. **Audrey Gabriel** (PhD-stud, Ulg)
Construction and validation of a phonological awareness test battery for nursery school pre-reading children
126. **Caroline Lejeune** (PhD-stud, Ulg)
Procedural learning in children: The "Toy" Task
127. **Stefaan Baert** (PhD-stud, VUB)
Cognitive and emotional processes in children's human figure drawings: Variables that influence the presence of emotional indicators
128. **Julie Nys** (PhD-stud, ULB)
The development of exact and approximate calculation abilities in SLI children
129. **Charline Urbain** (PhD-stud, ULB)
Do children with specific language impairment understand metaphors?
130. **Laure Legrain** (PhD-stud, ULB)
Do infants differentiate between the unwilling and unable states?
131. **Sasha Goldsztein** (PhD-stud, ULB)
Suicide attempts in adolescents
132. **Zoé Rosenfeld** (PhD-stud, ULB)
Adopted teenagers & relationships: Which specific characteristics and pathological risks?
